List of past exhibitors

The GEO events have been running for around 15 years and in that time we have seen some major industry launches and technology breakthroughs.

Here is a selection of past exhibitors, many have returned year on year.

Major technology launches from these companies have included the first laser scanners in the UK, scanning total stations, GPS and total station integration and high dynamic range 360° cameras. In addition, many software developers have chosen our events to launch new versions of industry standard packages as well as entirely new offerings.

3D Laser Mapping	GGP Systems	Precision Geomatics
Altus Positioning	ICES	Penmap
Applications in Cadd	IESSG	Qinetiq
APR Services	Innogistic	Royal Institution of Chartered Surveyors
Archaeoptics	Kingston University	Riegl
Art Systems	Korec	Rolta
Association of Building Engineers	Landmark	Routeware
Association for Geographic Information	Land Registry	SCCS
Ashtech	Latimer Cad	Sentripod
Autodesk	Leica Geosystems	SIA Ltd
Blom Aerofilms	Maney Publishers	Sigma Seven
Bluesky	MBS Survey Software	Sokkia
British Cartographic Society	McCarthy Taylor	South Survey
BRSSOS	MDL	Spaceyes
Cadcorp	Met Surveys	Spheron
Carlson Software	MH Surveys	The Environment Agency
CDR Group	NRG	The Survey Association
CentreMaps	Ohmex	The XYZ Digital Co
Cowi Mapping	ONG-IT	Topcon
C.Scope	OPTECH	Trimble
Envitia	Ordnance Survey	UEL
ESRI	PCI Geomatics	UNIGIS
FARO	Pentax	Z+F
GeoPlace	Phoenix Survey Equipment	
Getmapping	Positioning Resources
